

Freight Event Report

Teaser

Exed Consulting

The Application

Eliminate freight cost discrepancies before purchase order creation

OBJECTIVE

Automate the validation of freight costs before PO creation by comparing provisioned and invoiced values – reducing manual effort, ensuring tax compliance, and giving businesses greater control, accuracy, and confidence in their operations.

WHAT IT DOES

- Audits provisioned vs. invoiced freight costs before PO creation;
- Identifies discrepancies to ensure accurate tax booking and prevent errors.

BUILT IN SAP BTP

BENEFITS

- 01** Performs analysis of the CT-e amount and applicable taxes
- 02** Compares and identifies errors in NF-e referenced by the carrier
- 03** Interacts with the user by displaying errors through the monitoring tool
- 04** Less rework, greater accuracy

INTEGRATION SAP TM

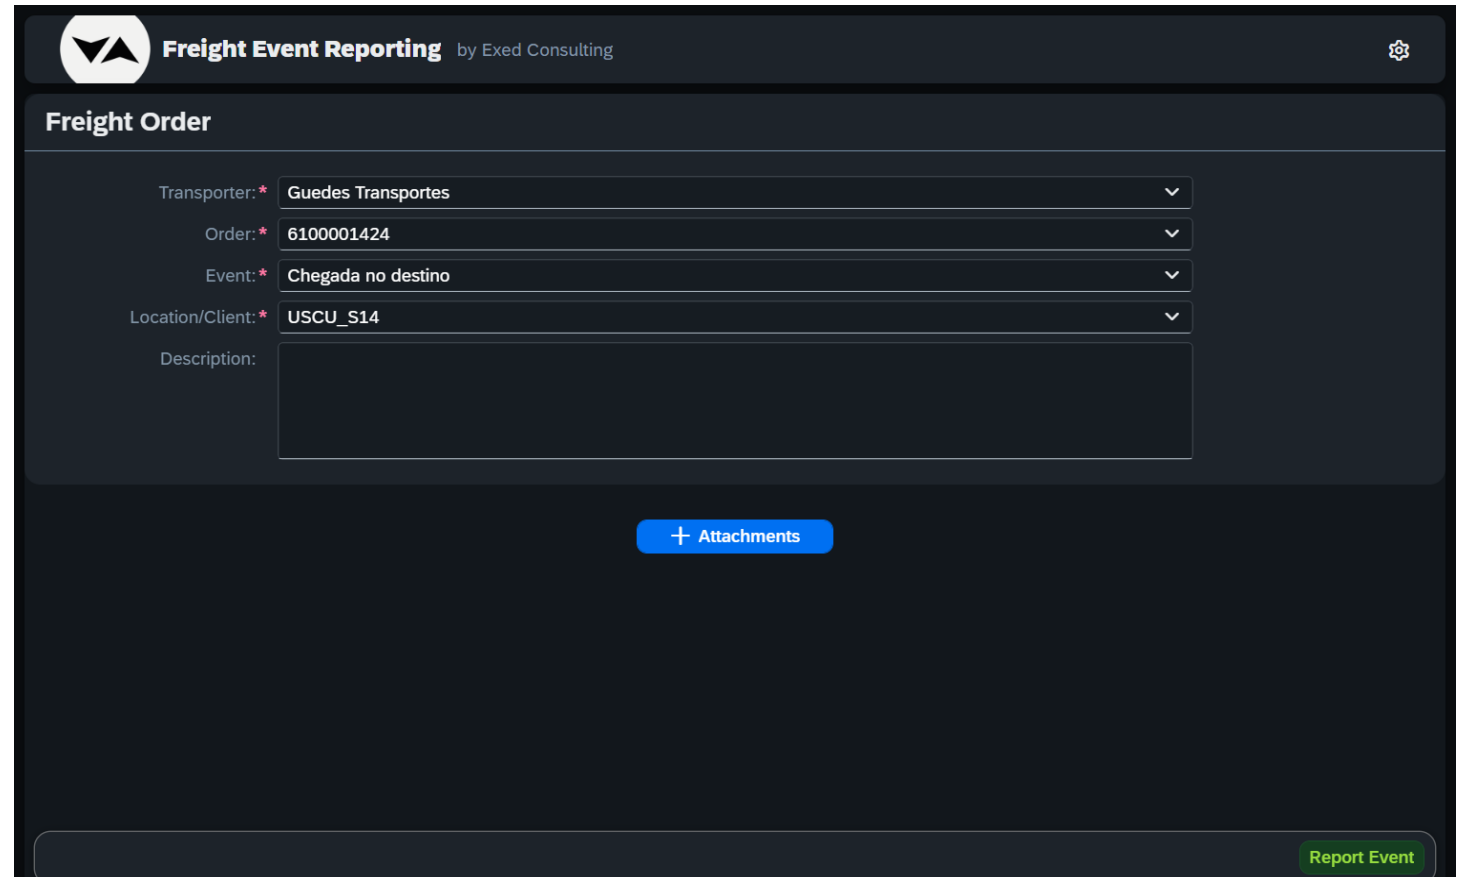

User Interface and Functionalities

Our Solution

User Interface and Functionalities

FEATURES

- Effortless Document Attachment: Easily add relevant documents to your event report;
- Simplified Report Creation: No need to navigate through multiple systems or transactions; the process is direct and efficient, saving both time and effort.

The screenshot displays the 'Freight Event Reporting' interface, developed by Exed Consulting. The header includes the company logo and a settings icon. The main section is titled 'Freight Order' and contains several input fields: 'Transporter' (Guedes Transportes), 'Order' (6100001424), 'Event' (Chegada no destino), and 'Location/Client' (USCU_S14). A 'Description' field is also present. Below these fields is a '+ Attachments' button. At the bottom right, there is a 'Report Event' button.

Field	Value
Transporter *	Guedes Transportes
Order *	6100001424
Event *	Chegada no destino
Location/Client *	USCU_S14
Description	

User Interface and Functionalities

FEATURES

- Seamless integration with S/4HANA Private Edition and ECC;
- Real-time access to master data for faster and more informed decision-making.

The screenshot displays the 'Freight Event Reporting' interface, developed by Exed Consulting. The header includes the company logo and a settings icon. The main section, titled 'Freight Order', contains several dropdown menus for data entry: 'Transporter' (selected: Guedes Transportes), 'Order' (selected: Guedes Transportes), 'Event' (selected: Fedex Corporation), and 'Location/Client' (selected: DHL Express Colorado US). A 'Description' field is also present with options like 'US TM Carrier1' and 'US TM Carrier2'. Below these fields is a blue '+ Attachments' button. At the bottom right, there is a green 'Report Event' button.

User Interface and Functionalities

FEATURES

- Seamless event creation synchronized directly with the ERP.

The screenshot displays the 'Freight Event Reporting' interface by Exed Consulting. The main section is titled 'Freight Order' and contains the following fields:

- Transporter: * Guedes Transportes
- Order: * 6100001424
- Event: * Chegada no destino
- Location/Client: * USCU_S14
- Description: (empty text area)

A modal dialog titled 'Report Event' is open, asking 'Do you want to send the freight order?'. It features two buttons: 'Cancel' (red) and 'Report' (green). Below the modal, there is a '+ Attachments' button. At the bottom right of the interface, there is a 'Report Event' button.

User Interface and Functionalities

FEATURES

- Mobile access available for greater flexibility and productivity on the go.

The image displays three sequential screenshots of a mobile application interface for 'Freight Event Reporting'. Each screen has a dark theme and a header with the title and a settings icon.

First Screenshot: Shows the 'Freight Order' form with the following fields:

- Transporter: * (Dropdown menu showing 'Guedes Transportes')
- Order: * (Dropdown menu showing '6100001424')
- Event: * (Dropdown menu showing 'Chegada no destino')
- Location/Client: * (Dropdown menu showing 'USCU_S14')
- Description: (Text input field)

At the bottom, there is a blue button labeled '+ Attachments' and a green button labeled 'Report Event'.

Second Screenshot: Shows the same form, but the 'Transporter' dropdown menu is open, displaying a list of options: 'Guedes Transportes', 'Fedex Corporation', 'DHL Express Colorado US', 'US TM Carrier1', and 'US TM Carrier2'. The 'Guedes Transportes' option is highlighted.

Third Screenshot: Shows a confirmation dialog box titled 'Report Event' with the text 'Do you want to send the freight order?'. It features two buttons: a red 'X Cancel' button and a green '✓ Report' button.
